Thanks for doing these Thank you's so quickly. We'll have to all look at our notes as to what we said we could (or would) send to USFS on the UA.

Subject: Thank you!

Hello, All.

Thank you so much for meeting with Paula Schmittdiel, Liz Fagen, Dan Wall and me this afternoon to discuss water quality in the Animas River. We really appreciated the opportunity to discuss our upcoming activities and to learn more about your interests in the watershed.

Please feel free to contact me if you have any questions or would like more information about our work in the area.

Best regards,

Cynthia

Cynthia Peterson
